SKILLS

TECHNICAL / WEB DEVELOPMENT SKILLS:-

JavaScript (ES6+), React.js, Next.js

Node.js, Express.js, MongoDB / Mongoose

REST APIs, Tailwind CSS, UI/UX Design

OFFICE & PRODUCTIVITY:-

Microsoft Excel (Formulas, VLOOKUP, HLOOKUP, Reports)

Google Sheets (Data management & basic automation)

Microsoft Word (CVs,letters, letterhead design)WARE

Windows installation (USB boot setup)

Software & driver installation

RAM / HDD / SSD upgrade

Printer & scanner setup & troubleshooting

TOOLS & DESIGN:-

Canva (custom designs & resumes)

👤 PROFILE/ABOUT ME

Web Application Developer with 6 months of hands-on project experience and a 3-year Software Engineering diploma from Aptech. Skilled in React, Tailwind CSS, and modern web technologies, with a strong foundation in problem-solving and clean UI design. Also bring 3 years of accounting and IT support experience, making me detail-oriented and reliable. I'm passionate about building functional, user-friendly web applications and growing as a MERN Stack developer.

💼 WORK EXPERIENCE

Web Developer — Self/Project-Based   2024 - Present

- Developed a full-stack authentication system featuring secure login, signup, password encryption, JWT-based session management, and logout functionality.
- Built frontend interfaces using React and Tailwind CSS for a clean and responsive layout.
- Created and maintained RESTful APIs with Node.js and Express, connecting them with MongoDB for data management.
- Optimized application functionality and conducted thorough testing to ensure smooth performance.
- Deployed projects on live environments (Vercel / Render / Railway), demonstrating end-to-end web development experience.
- Followed UI/UX best practices to make applications user-friendly and accessible.

Shaheen Textile Company

Account Assistant   2020-2021

- Handled financial records and invoices.
- Assisted in account reconciliation.
- Improved attention to detail and problem-solving.

Emarat Engineering Inspection Services   2021 - 2023

- Handled accounts receivable/payable and financials.
- Liaised with clients/vendors for timely payments.
- Improved reporting processes and accuracy.

1

KEY PROJECTS

1.Authentication System (MERN + JWT)

- Secure login/signup, protected routes, logout
- Token-based auth & validation

2.ChatBot Application — MERN Stack

Developed an interactive chat application with real-time messaging
using React, Node.js, Express, and MongoDB.

- Implemented backend APIs to handle user messages and conversations.
- Managed MongoDB database to store chat history and user sessions.
- Built responsive and user-friendly frontend interface using React and Tailwind CSS.
- Deployed on live environment for demonstration and testing purposes.
- Tech: React, Node.js, Express, MongoDB, Tailwind CSS, JWT

ACADEMIC EDUCATION

Diploma / Technical Education   2022-2025
APTECH BOARD OFFICE,
NORTH NAZIMABAD

Diploma in Software Engineering — In Progress /
Certificate Pending

- Completed hands-on projects in web development (MERNstack, React, Node.js, MongoDB)
